If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

(In the space provided below, please explain in detail the reasons for the delay in filing a proper reply.)

The present Application was abandoned since the USPTO did not actually mail the Office Communication dated December 12, 2007 and referred to in the Notice of Abandonment dated June 30, 2008.

The Applicant checked private pair and did not see any entry corresponding to the December 12, 2007 Office Communication on November 17, 2008. The Applicant then checked public pair, and discovered an entry for the Office Communication in the Transaction History but not in the Image Wrapper.

The Applicant contacted Examiner Sigler on November 17, 2008, and the Examiner indicated that he had prepared an Office Communication on December 12, 2007, and confirmed that there was no record of it being actually mailed to the Applicant.

The Examiner said that he would check into the status of the Office Communication, and as a result, it was sent electronically to the Applicant on November 20, 2008.
